All industries are impacted by cyber threats — but for small and medium-sized businesses (SMBs), even one cyberattack can be devastating.

Quick Pitch

CrowdStrike Velocity Bundles offer affordable protection purpose-built for SMBs. Deeply discounted and pre-approved pricing lets customers instantly deploy award-winning, AI-powered cybersecurity.

SMB businesses are increasingly under attack, and traditional antivirus tools can't keep up. CrowdStrike Velocity Bundles deliver award-winning cybersecurity tailor-made to protect SMBs from data breaches.

CrowdStrike Velocity Bundles offer easy-to-use, easy-to-manage cybersecurity solutions that protect what's important so that SMB customers can focus on doing great business.

Cybersecurity Should Just Work

We agree — that's what the CrowdStrike Falcon® platform is here for:

Advanced Protection

Offers AI-powered, next-generation antivirus (NGAV) protection, behavioral detection, and machine learning to prevent both known and unknown attacks

Easy to Use

Designed for all skill levels, allows you to easily manage protected devices and deploy endpoint agents — all from a single, comprehensive console

Stops Ransomware

Achieved 100% ransomware prevention in independent testing by SE Labs[1]

Reduces Data Theft

Delivers full visibility and control over employees' use of USB storage devices to prevent downloading of sensitive information

DICKER DATA

CrowdStrike Velocity Bundles offer:

- Product bundles purpose-built for organizations with <250 seats
- Low-touch sales: Competitive discounts on CrowdStrike Falcon® Go and CrowdStrike Falcon® Enterprise
- Faster sales cycle, fewer steps, and seamless deployment

	Falcon GO	Falcon Enterprise
Falcon Prevent	x	x
Falcon Device Control	x	x
Falcon Firewall Management		x
Falcon Adversary OverWatch		x
Falcon Insight XDR		x
Falcon for Mobile	x	
Threat Graph Standard		x
CrowdStrike Support	x	x

What's Included

- **CrowdStrike Falcon® Prevent next-gen antivirus:** Protects against all types of threats — from malware and ransomware to sophisticated attacks — and deploys in minutes, immediately protecting your endpoints.
- **CrowdStrike Falcon® Device Control:** Provides detailed visibility into USB device usage. Enables granular policy enforcement to ensure control over USB devices used in the environment.
- **CrowdStrike Falcon® Firewall Management:** Delivers simple, centralized host firewall management, making it easy to manage and control host firewall policies.
- **CrowdStrike Falcon® Adversary OverWatch:** Disrupts adversaries and stops breaches with 24/7 AI-powered managed threat hunting and intelligence across endpoints, identity, and cloud.
- **CrowdStrike Falcon® Insight XDR:** Provides industry-leading endpoint detection and response (EDR) and extended detection and response (XDR) in a single solution.
- **CrowdStrike Falcon® for Mobile:** Safeguards your business from mobile threats with advanced protection that detects malicious activity and prevents unauthorized access on Android and iOS devices.
- **CrowdStrike Threat Graph®:** The brains behind the CrowdStrike Falcon platform. Predicts and prevents modern threats in real time through the industry's most comprehensive sets of endpoint telemetry, threat intelligence, and AI-powered analytics. Threat Graph puts this body of knowledge at responders' fingertips in real time, empowering them to understand threats immediately and act decisively.
